

## **Register of EETS Domains and Registered providers (Belgium)**

according to art. 19 of the Commission Decision 2009/750/EC on the definition of the European Electronic Toll Service EETS

## **Register van de EETS-gebieden en geregistreerde aanbieders (België)**

Volgens art. 19 van de Beschikking van de Commissie 2009/750/EC tot definiëring van de Europese Tolheffingsdienst EETS

## **Registre des Secteurs SET et des prestataires SET enregistrés (Belgique)**

Selon l'article 19 de la Décision de la Commission 2009/750/EC  
Relative à la définition du Service Européen de Télépéage SET

According to art. 19 of the Commission Decision 2009/750/EC, each Member State shall keep a national electronic register of EETS Domains and Registered providers for the purposes of the implementation of the above mentioned Decision.

The EETS Domains are defined as the toll domains falling under the scope of Directive 2004/52/EC of 29 April 2004 on the interoperability of electronic road toll systems in the Community.

The register shall include information relating to:

- the corresponding Toll Chargers
- the tolling technologies employed
- the toll context data
- the EETS domain statement
- the EETS providers having EETS contracts with the Toll Chargers active in their area of competence.

An EETS registered provider is a legal entity fulfilling the requirements of Art. 3 of the Decision and registered in a Member State where they are established.

### **1. Register of EETS Domains**

- a. The Flemish Region (active April 1 2016) ,
  - b. the Walloon Region (active April 1 2016) and
  - c. the Region of Brussels Capital (active April 1 2016)
  - d. the Liefkenshoektunnel (active)
- are EETS Domain regions

### **2. Registered EETS Providers**

No EETS Providers have been registered in Belgium.

Last update: February 28, 2016

When an EETS-Domain or an EETS Provider will be registered in Belgium, Viapass will put the information into the register.
